## Objective

---

Performance-driven web developer seeking a challenging environment to grow and develop necessary skills in the industry. Help solve complex issues and optimize solutions for the company.

## Experience

---

### General Assembly

2013- Present

- Built three applications, MVP's done within 1 week each project.
- Made Test Driven Development in assignments using Rspec and Jasmine.
- Project leader of a group application prioritizing MVP features on Trello.
- Provided and created a heavy backend database in a group project within a day.
- Created an application and made it live within a week using a framework that I had no experience in.

### UFCW770 Union Workers

2014 - Present

- System admin using HTML and Python
- Remotely coordinate and provide insight towards design for new postings.
- Implemented site updates within a short timeframe using Drupal.

### Ed Wong Real Estate

2012 – 2013

- Organized over 15 years worth of documentation and paper files into excel spreadsheets.
- Showcased and signed with multiple clients through commercial and residential property.
